

***Join Now for the New Cycle of the Year at Easter!***

**'An Inner Journey through the Year'**

**~ The Calendar of the Soul and Karl König's Meditative Drawings**

**A 52-Week Series of Recorded Talks with Richard Steel**

These talks arise out of five decades that Richard Steel has dedicated to the Calendar of the Soul and Karl König's illustrative drawings.

The series includes two introductory lectures and 52 shorter weekly talks. Week by week people can experience more deeply what Rudolf Steiner meant when he said the Calendar of the Soul is a path of 'feeling self-development'. They can also connect more deeply with the being of the earth and the seasons, with the festivals of the year, and with the cosmic rhythms.

Richard's talks also bring understanding that as human beings today are becoming increasingly disconnected from their breathing and their hearts, this impacts the being of the earth who struggles more to breathe and live in harmony with the cosmic being. We are confronting this reality in the stark climate catastrophes of our time.

The 'Inner Journey' is one of hope and healing — for us as individuals, for the social organism that unites us, and for the being of our earth.

The community of the 'Inner Journey through the Year' has grown to over 700 people in 23 countries, and the talks are available in English, German, Italian and Chinese.

People can join the series at any time during the year and be connected with what is living in the journey. The talks are pre-recorded and can be listened to at any time.

**The fee for the 'Inner Journey' is US\$50; the student-support fee is US\$40.**
