the Karl König Institute and the Camphill Communities of New York

Invite You to a North American Festival!

The theme of Kaspar Hauser and the Apocalypse is closely related to the questions and trials of our time!

The Festival will feature lectures by Eckart Boehmer, Richard Steel and Carrie Schuchardt and a talk and conversation with David Schwartz.

There will be artistic presentations and conversation groups. And there are exciting developments to share from the Kaspar Hauser Research Circle!

We will look strongly to the future, referencing the Revelation of John in the New Testament through the lens of John's visionary revelations, and seeing how they can inspire our work.

Another focus will be considering how Kaspar Hauser, Rudolf Steiner and Karl König can help us have a positive influence on world development– and importantly, what would be needed from us! The destiny and true task of North America are significant!
