

## “An Inner Journey through the Year”

**For the first time, Karl König's original drawings illustrating the anthroposophical Calendar of the Soul will be exhibited by the Karl König Institute across North America!**

Embark on an "Inner Journey Through the Year" with Karl König's meditative drawings for the 52 verses of the Calendar of the Soul.

Experience how the rhythms of our lives connect our own breathing with the rhythmic breathing processes of the earth and the cosmos.

Understand how breathing itself is at risk in our time!

Discover how our inner work with the meditative drawings and verses of the Calendar of the Soul becomes like a medicine for the breathing of human beings, the social organism, the planet and their relationships within the cosmic order.
